PROJECTS

AI Enabled Finance Management - FinTrack [View-Dashboard](#) [Documentation](#)

- Built and deployed a dynamic full-stack FinTrack application that helps users to track monthly budgets and improve spending habits.
- Integrated AI-based OCR to automatically extract transaction data from uploaded images and PDFs of bills and receipts, enhancing accuracy and reducing manual entry time by 40
- Implemented secure user authentication using OAuth (Google, GitHub) and traditional email/password login.
- Tech stack: React.js, Supabase, Prisma ORM, Gemini API- delivering a scalable, interactive, and user-friendly experience.

Hospital Listing Website - MEDICO [View Dashboard](#)

- Developed an interactive web application for searching and filtering hospitals based on various health-care schemes in Ranchi, enhancing accessibility with responsive web design.
- Included filtering options with hospital type, available treatments, government and private schemes, and user ratings.
- Technologies Used: HTML, CSS, JavaScript, Firebase.
